

- Chamfered neck part
- Heat resistant body
- Rounded edges
- Good heat partition
- Suitable for washroom
- Automatic Circulation air blowers
- CE Marking

### State Of The Art

The MeRCuRR is built to the highest specification with a heat resistant, coloured reinforced plastic body.

Because of its compact shape the solarium is in combination with a washing place the ideal place to take of your horse.

The front is raised to allow free movement of the horse's neck and features rounded edges to avoid injury. A combination of 18 IR lamps of varying wattage and 4 circulation fans ensure an even and pleasant temperature over your horse.

Technical Specification		Material and dimensions	
<b>Lamp</b>		Module	Heat resistant plastic
150 Watt IR	12	Colour top	Dark Green
250 Watt IR	6	Colour bottom	Crème white
Total IR Power in Watts	3300	Lamp holder	Aluminium
<b>Circulation Fans</b>		Fixing	Steel
Amount	4	Dimensions LxWxH in meters	1,88*1,19*0,52
m3/h	540	Weight	30kg
Automatic ca. 30gr Celsius	•		
<b>Power connection</b>		<b>Guide lines</b>	
Voltage	1F + N + PE 230 V 50Hz	according	CE
Circuit breaker	16 A	IP rate	44
Total power consumption in Watt	3500		
		<b>Including</b>	
		Fixing kit	•
		Power cord	•
		Intergraded lights	o
		Electrical lift installation EL LC	o
		Control box	o
		UV lights	o
